

3 Series

Aura Series - Linear Coaxial Speaker with an Omniwave guide.

Applications

- Live Music Clubs and Bars
- Museums and AV Spaces
- Convention Centres
- Retail Outlets
- Leisure Centres
- Houses of Worship

Products in the Series

- Aura 315X
- Aura 312X
- Aura 310X
- Aura 308X

Features

- Concentric design for improved acoustic loading and controlled coverage.
- IP-54 enclosures for environmental installations.
- Can be used as monitors or FOH systems.
- Coherent phase response
- Ergonomic handles & multiple mounting options for easy installations
- Can be used as a floor monitor

The Aura series is a new class of loudspeakers that deliver high SPL, low distortion audio coverage in a complete high performance loudspeaker cabinet. It provides a high octane solution for sound reinforcement in high-SPL applications such as performance venues and clubs. The weather resistant construction adds a layer of flexibility to it's application
