- Powerful class-D X-Amp module for extreme reliability.
- a 2-side active power factor correction on the SMPS power module.
- The Delta Drive DSP houses the system presets
- the module has a built-in protection circuit against overloaded currents & overheating

Products in the Series

- Aura 18 XS
- Aura 15 XS
- Aura 12 XTS

the Aura Series powered subwoofer with a dual ported bandpass cabinet design that allows for maximum sub output & deep lows. Designed to work as a standalone unit or a part of a PA system with the Octa 85H or the Octa 82H, this subwoofer is extremely versatile and fits well within high performance installations such as nightclubs, energy bars, exercise or health centers and even on portable touring applications.
