4 X 350W @ 4 OHMS, CLASS D NETWORK AMPLIFIER

# ALPHA LINK 20 4 X 350W NETWORK AMPLIFIER

The Alpha Link 20 is a compact 4-channel DSP amplifier designed for modern installations and touring setups that demand efficiency, flexibility, and professional-grade performance. Delivering 4 × 350W @ 4Ω, it supports both low-impedance and 70V Hi-Z operation, making it ideal for a wide range of loudspeaker systems. With analogue and Dante™ inputs and outputs, seamless integration into networked audio environments is effortless. The amplifier's advanced Class D design ensures excellent energy efficiency, low THD (<0.1%), and a damping factor exceeding 400 for precise low-frequency control.

Built for reliability, the Alpha Link 20 features mains in-rush protection, signal limiters, and ultra-quiet 32 dB fan noise levels, allowing it to perform quietly and safely under pressure. Rotary knobs and LED indicators for input metering and network status offer intuitive control, while the sleek black aluminium chassis with a matte white steel front panel allows for clean integration into any rack system. Whether deployed in fixed installations or mobile rigs, the Alpha Link 20 offers dependable, scalable power with uncompromised sonic integrity.
